

First Responder

Comprehensive first aid and CPR skills for professional first responders or those training to become first responders. Course teaches the patient assessment model, cardiopulmonary resuscitation, hemorrhage control, and care for a variety of acute and chronic conditions. Participants will be engaged in dynamic training techniques including video, media presentations, skills demonstrations, practice sessions, discussions and scenarios based on real-life situations.

Audience

Professionals in a fire service, rescue team, workplace response team, sports-medicine professionals, lifeguards and ski patrol.
